**PREFERRED PRICING**

By choosing an extended warranty program, you’ll earn preferred pricing on parts and accessories that would not be included under your extended warranty. Examples of this would be parts for a competitive manufacturer's equipment at another one of your sites or accessories like towels and spray bottles. As you increase the term of the extended warranty, your discount increases. *The discount starts at 10% and grows all the way to 15% OFF Parts & Accessories.*

Below is a schedule of how the discount structure works.
