MORE WASH POWER™

Mitters

Front to Back and Side to Side
Get Ahead of the Competition with Motor City Wash Works

FRONT 2 BACK AND SIDE 2 SIDE MITTERS

FEATURES

• Features an under head motor mount for lower ceiling clearance.
• Both Mitter Curtains stand only 10 feet tall and have a vehicle clearance of 90 inches.
• V.F.D. is available as an option to achieve desired action.
• 2 position pitman drive arm directly changes the stroke of the Mitter baskets.
• The Front to Back Mitter uses a patented 4-Basket over-lapping design.
• The Side to Side Mitter uses a 6-Basket design.
• Our basket designs offers seamless cleaning coverage and eliminates any possibility of the skunk stripe.
• Aluminum structure with Color Skinz™ for added appeal, corporate branding, and ease of cleaning.
• Easy to replace c-loop™ slide-in cloth wash material.
• Includes wet down manifolds for proper foam lubrication and rinsing of dirt.

### HIGHLIGHTS

**4 BASKET DESIGN**

Our Front to Back Mitter contains an exclusive 4-Basket overlapping design that offers seamless cleaning coverage and eliminates any possibility of the “skunk stripe”.

**6 BASKET DESIGN**

Our Side to Side Mitter contains a 6-Basket overlapping design that offers seamless cleaning coverage and eliminates any possibility of the “skunk stripe”.

**C-LOOP™ CLOTH**

C-Loop™ fastening system securely holds looped cloth, efficiently transferring all of the motion of the machine to the cloth for maximum cleaning power and easy loading.

**COLOR SKINZ™**

Our Color Skinz™ structure wrap provides an opportunity for added appeal, corporate branding, ease of cleaning, and it hides utilities.

**DRIVE SYSTEM**

Stainless Motor and Aluminum Gearbox Drive System are mounted under the framework, which allows the Side to Side Mitter to fit under 10 foot ceilings.

**MANIFOLDS**

PVC wet down manifolds spray soapy solution onto the cloth from the top and from each side to ensure that the cloth is properly lubricated and that dirt is continuously flushed out.
